

Anchor Bank Branch Facility

Owner: Anchor Bank
Franklin, Wisconsin

FCM Corporation was chosen by Anchor Bank to provide Design/Build services for a new 3,800 square foot, free standing, branch bank facility with accommodation for three drive-through lanes.

FCM worked closely with the Owner to obtain state and municipal approvals and to overcome the challenge of on site wetlands. The design includes a barrel roof extending over the central lobby spaces and drive through lanes and a curved building front to provide a unique and attractive look as one approaches the building.

The new facility was completed in October, 2003 and is currently providing services to the community of Franklin.
