

**U.W. Health – Physicians Plus Clinic**  
Oregon, Wisconsin

*“FCM Corporation assisted us in quality planning for a new clinic with our staff, resulting in a well thought out facility with an efficient work flow. The end product is an aesthetically pleasing and quality medical office building for our physicians and staff to provide clinical services to our patients.”*

*Theresa Soik  
Director of Facilities  
UW Health - Physicians Plus*

When UW Health - Physicians Plus decided to leave their existing 3,000 SF clinic they turned to FCM Corporation as their Design-Build Contractor.

FCM Corporation provided services including conceptual design, design development, working documents and construction management for a new 9,200 SF medical office building in downtown Oregon. The building is designed for 5 primary care providers offering both x-ray and lab services.

The project was completed in the spring of 2000.
